

Sprint 2 Demo
Oct 17, 2022
9:00 am to 9:30 am
CSC B10

Agenda Items

1. Sprint 2 Demo / Feedback

Attendees:

Jensen Khemchandani

Matthew Sheydwasser

Peter Qiu

Tomas Peschke

Victor Nguyen

Leen Alzebdeh

Sprint 2 Demo

Notes:

- Went over revisions and sprint 2 changes with Jashwanth
- Scrum master / Product owner is staying the same
- Overall we did a pretty good job
- Everyone seems to be contributing well, make sure to give a good feedback form with reasons
- Demo fair next friday (Oct. 28) - have something to show!

New action items and responsibilities:

1. Move done items into new 'sprint 2' column and move sprint 3 items into backlog and in progress
2. Change Package json file to use the name of the project
3. Set up app on Cybera for Jashwanth to play around with
4. Change google login to open up a 'model' on the page instead of redirecting you off the page (Low priority)

- Create new google auth api account for production with Cybera URL
- Modify React code to use environment variable instead of localhost:3000 directly in code - must be replace
- Fix react dependencies issue (less important for the time being)
