

Lab 7 TA meeting
Nov. 14, 2022
9:00 am to 9:30 am
CSC B10

Agenda Items

1. Discuss sprint feedback with TA
2. Discuss sprint 4 progress

Attendees:

Jensen Khemchandani

Ronggang Cui

Matthew Sheydwasser

Peter Qui

Victor Nguyen

Tomas Peschke

Jashwanth

Leen Alzebdeh

Discuss sprint feedback with TA

Notes:

- We need to pick new Scrum master / product owner
- Every time that we have a deadline, we need to make sure that only working things are added to the sprint release.
- Coefficients calculated automatically - won't get contacted by TA
- Make sure all teammates contributions are values and opinions are heard
- Make sure that when we release a feature, that it is complete and working - follow agile methodologies

New action items and responsibilities:

1. Decide new Scrum master and product owner for the last sprint
2. Change the 'create dev in a box + button' to be an actual button instead of just a '+'

Discuss sprint 4 progress

Notes:

- What we worked on:
 - Leen: I started remodelling forms in general, like form validation (ex: throw errors if a field is missing) and i started working on the manage org button as well
 - Matthew: Check for last admin functionality - ensure that all organisations have at least one admin
 - Victor: Worked on UI stuff - Invite link button
 - Roman: Select current organisation and make it such that you can only see things based on access privileges
 - Tomas: Frontend added a window that allows role management for users and administrators for an organisation - backend added functionality to update and add roles
 - Jensen: Stripe fixes and invite link generation
 - Peter: Added a button on dashboard to delete the organisation

New action items and responsibilities:

1. Continue working on sprint 4 tasks
2. Make sure to update user stories and sprint velocity along the way
3. Ensure that feedback given for the last sprint is addressed
