Oct, 3, 2022

9:00 am to 10:50 am

CSC B10

## Agenda Items

1. Discussion with Jashwanth

## Attendees:

Jensen Khemchandani

Ronggang Cui

Matthew Sheydwasser

Peter Qiu

Tomas Peschke

Jashwanth

---

## Discussion with Jashwanth

### Notes:

- Jensen - Scrum Master
- Tomas - Product Owner
- No concerns from Jashwanth perspective
- Sprint 2 deadline Oct. 15
- Asking questions has been good from Jashwanth's perspective.
- Make sure we are using boilerplate react code and testing code
- Pick one testing strategy and stick with it! Make sure the location and structure of our test files is consistent across the project.
- Suggestions for sprint 2:
  - Make sure to cover feedback - 10 marks for revisions
  - Detailed design
    - If architecture diagram changes, make sure to change for sprint 2
    - Classes themselves in the UML need to have access modifiers
    - When new fields come up in database, make sure to update diagram
    - Make sure rubric is being followed
    - Don't need to deploy to Cybera just yet! Review rubrics to make sure.
    - Get rid of JSON from architecture diagram – make more general

- Individual work:
  - Matthew:
    - Backend with Jensen
    - Controller/Service testing - Users
    - OAuth research – working on OAuth
  - Roman
    - Was busy with school - Will be working on wireframe and other front-end tasks as they come up this week
  - Jensen:
    - Updating software design docs
    - Backend testing with Matthew - Organisations
  - Tomas:
    - Basics of frontend with Leen
    - Working on new user stories for new requirements
    - Working with client to change some things to be consistent with new requirements
  - Peter:
    - Was busy with school
    - Will be working with Matthew on OAuth stuff this week

**New action items and responsibilities:**

1. Meet with the team to ensure that everyone is on task and understands responsibilities for the week.
